

Media Analytics Research At IBM.

Dr. Arun Hampapur
Distinguished Engineer
Dept of Security, Information Analytics and Business Integrity
IBM Research.

IBM Research is involved in several longer term research projects involving various aspects analyzing media. In this talk I will highlight the following areas.

- Multimedia Analysis and Retrieval
- Smart Video Surveillance
- Biometrics
- Automotive Video Applications
- Spatio-temporal analysis and reasoning

I will present core technologies from each of these areas and discuss applications.
